

Plan Section - Assessment of Current Public Infrastructure & Facilities

Plan Steering Committee Discussion Questions (04/01/13)

After reading the draft *Plan Section - Assessment of Current Public Infrastructure & Facilities*, please use these questions to help prepare for a Steering Committee discussion on this section of the Plan.

For each of the four principal infrastructure categories listed below, please be prepared to discuss the following questions:

1. Transportation Infrastructure (\$3.7 billion) -

(Highways, streets, bridges, sidewalks/paths, parking facilities, transit, airport)

1. What questions do you have regarding the summary of asset information provided for this infrastructure and facility category?

2. What questions do you have regarding the condition and capacity assessment provided for this infrastructure and facility category?

3. What questions do you have regarding the current proposed capital spending information provided for this infrastructure and facility category?

4. List any other important data or information that should be listed for this infrastructure category:

5. On a scale of 1 to 5 (1 being least impactful; 5 being most impactful), how significant do you think the issues/challenges associated with this infrastructure category will be in terms of impacting future public infrastructure spending decisions and priorities for Wichita and Sedgwick County?

1 2 3 4 5

2. Health & Environment Infrastructure (\$2.1 billion) -

(Water, sanitary sewer, storm sewer/stormwater management, solid waste management, public health facilities)

1. What questions do you have regarding the summary of asset information provided for this infrastructure and facility category?

2. What questions do you have regarding the condition and capacity assessment provided for this infrastructure and facility category?

3. What questions do you have regarding the current proposed capital spending information provided for this infrastructure and facility category?

4. List any other important data or information that should be listed for this infrastructure category:

5. On a scale of 1 to 5 (1 being least impactful; 5 being most impactful), how significant do you think the issues/challenges associated with this infrastructure category will be in terms of impacting future public infrastructure spending decisions and priorities for Wichita and Sedgwick County?

1 2 3 4 5

3. Culture, Recreation & Parks Infrastructure (\$0.5 billion) -

(Libraries, arts/education facilities, parks, recreation facilities)

1. What questions do you have regarding the summary of asset information provided for this infrastructure and facility category?

2. What questions do you have regarding the condition and capacity assessment provided for this infrastructure and facility category?

3. What questions do you have regarding the current proposed capital spending information provided for this infrastructure and facility category?

4. List any other important data or information that should be listed for this infrastructure category:

5. On a scale of 1 to 5 (1 being least impactful; 5 being most impactful), how significant do you think the issues/challenges associated with this infrastructure category will be in terms of impacting future public infrastructure spending decisions and priorities for Wichita and Sedgwick County?

1 2 3 4 5

4. Public Safety Infrastructure (\$0.2 billion) -

(Fire facilities, police facilities, EMS facilities, corrections facilities, court facilities)

1. What questions do you have regarding the summary of asset information provided for this infrastructure and facility category?

2. What questions do you have regarding the condition and capacity assessment provided for this infrastructure and facility category?

3. What questions do you have regarding the current proposed capital spending information provided for this infrastructure and facility category?

4. List any other important data or information that should be listed for this infrastructure category:

5. On a scale of 1 to 5 (1 being least impactful; 5 being most impactful), how significant do you think the issues/challenges associated with this infrastructure category will be in terms of impacting future public infrastructure spending decisions and priorities for Wichita and Sedgwick County?

1 2 3 4 5
